

## Area 3 - Granollers Centro

### Description

Urban zone with highly divers typology including a city center, a school area, residential areas, industrial area, sports complex, public parcs, outdoor parkings and pedestrian areas. Some areas are spacious with good visibility and some are not. Many different types of intersections can be found: straight and angled junctions, multiple sized roundabouts, with and without traffic lights, with and without priority streets, etc. Streets can have between 1 and 4 lanes. Many obstacles can be found such as (incorrectly) parked vehicles, trash deposits, groups of people, bus at bus stop or construction works. The area also contains a few bridges.
