

## Route 2 - Tuneles Garraf

### Description

Six curved highway tunnels, with lengths varying between 400 and 1700 meters. All tunnels are equipped with adjustable lighting and electronic traffic signs. Due to east – west orientation, strong backlight can occur at dusk and dawn when entering or leaving a tunnel. Lanes are frequently closed due to road works or maintenance. Presence of both metallic and concrete road side barriers. Emergency lanes available both inside and outside tunnels. Toll applies.

### Characteristics

Length	13,5 km
Lane width	3,5 - 4,0 m
Type of road	Highway (4 lanes)
State of road	good
Maximum speed	90 km/h
Number of intersections	0
Number of overhead bridges	1
Number of tunnels	6
Total ascent / descent	-
Max slope / min slope	-
Mobile network coverage	poor
